True, but there is also 30,000 under "Receipts" which is not going to be realized under the Mil Rest MK

Revised)

3) The object of the Mil-Council is not clear from the resolution on the subject The current years' budget contains a provision of Rs 30,000 both on the 'receipt' & 'expenditure' side, for the Industries Suburb If the loan is not going to be raised now, the total receipts will fall by 30,000 Rs, and whether irrespective of this, the expenditure can be incurred is for ~~orders~~ consideration. It is thus not clear whether the Mil Council are for putting off the scheme altogether for some time Further inquiries may be made on the point

Extract from Dewan's order in MJ 212-16

"From what Mr. Puttanna Chetty said at the meeting of the Standing Committee on 28th September 1918, it is understood -- that the Municipal Council will take the ultimate financial -- responsibility for the scheme, if Government advance the entire cost. An enquiry may be made whether they agree to such an arrangement.

In that case, steps may be taken to have the entire suburb laid out early. The scheme is likely to prove a profitable one for the Municipality in course of time.

In case, however, the Municipal Council do not desire to -- lay out the entire suburb, the acquisition of land may be completed, the cost being advanced by Government free of interest and -- the Municipal Council may immediately lay out half a dozen sites only at their own cost. In that event arrangement for a separate water supply system may be deferred, and the few concerns that -- will be immediately started may, if feasible, be supplied water - from the general syetem or given facilities to excavate wells. But this arrangement cannot be so satisfactory as laying out the suburb once for all so as to concentrate future industrial developments of the city principally in one defined locality.

In the case of the Mysore City also, a scheme on similar -- lines may be brought into operation immediately, should the Municipality be unable to raise a loan.

The mlty in their reply of the 21st Dec 1918 accepted the suggestion and said that the land may be acquired on a Govt advance. It would then appear ~~that~~ as though Govt are prepared to advance the amount required and forgo the interest at the time of the issue of the order

SIR,

I am desired to forward for information of Government the marginally noted extracts from the proceedings of the Standing Committee held on the 28th September 1918

Industrial Suburbs- The Revenuse Secretary explained the situation as regards both the Bangalore and Mysore suburbs In the case of the Mysore Suburb it was stated that action could not be taken as the funds required for starting operations were not available It was therefore suggested that an advance of Rs 50,000 might also be made for the Mysore suburb as at Bangalore and the work proceeded with Mr Matthan suggested that the exact situation of the Mysore suburb had to be further considered in the light of the discussion at the meeting of merchants held in July last and that two different localities should be selected

Sir,

With reference to correspondence ending with your letter dated 1943 regarding the Industrial Cabinet, I am directed to state that with a view to obtain early information as to how the scheme is working, it may be necessary to make some changes in the working of the scheme by taking up the Govt. portion of the land measuring 34 acres and laying it out and

allotting Sales Tax. The value of the land and the cost of the layout may be deducted & the Duty and the Sale proceeds of Silos credited to it.

I am to request you to be good enough to submit the views of the Delhi Council regarding the above proposal, at a very early date.
